

BUSINESS DETAIL	
Business Context:	Write a statement that sets the greater business context within which the SUC sits. The structure of a user story is ideal: "As a [business role] I/we need to [do something] in order to [achieve something of significance to the business]."
Triggering event:	Describe the event which triggers the SUC, e.g.: <ul style="list-style-type: none"> • Actor elects to do X (for human triggers) • Time to do X arrives (for time triggers) • X received (for non-human triggers: email, message, etc.)
Goal (intent):	Provide a single sentence to describe the goal. This must be compatible with both the SUC name and the post-condition of the primary path.
Interfaces:	List any other systems this SUC needs to interface with.
Includes:	List any SUCs which must be included by this one.
Extended by:	List any SUCs which may extend this one.
Primary path overview:	Describe the primary path succinctly in a single paragraph.
Alternate paths occur when:	Identify all the alternate paths by listing the circumstances which trigger them, but do not describe the paths themselves.
Exception paths occur when:	Identify all the alternate paths by listing the circumstances which trigger them, but do not describe the paths themselves.
Volumetrics Primary Path:	Provide business volumetrics for the primary path.
Volumetrics Alternate Path n:	Provide business volumetrics for each alternate path.
Volumetrics Exception Path n:	Provide business volumetrics for each exception path.
Business Priority Primary Path:	High/Medium/Low from a business perspective.
Business Priority Alternate Path n:	High/Medium/Low from a business perspective.
Business Priority Exception Path n:	High/Medium/Low from a business perspective.
Business notes:	
TESTING DETAIL	
Acceptance criteria:	List the draft acceptance criteria.
Testing notes:
